Dear Tae-Yoon,

This is to inform you that your manuscript "Ontogeny of a new species of the Cambrian Series 3 (middle Cambrian) trilobite genus *Liostracina* Monke, 1903 from North China and the taxonomic position of the Superfamily Trinucleidea" has been accepted for publication. We will likely make some minor changes in wording, but otherwise we plan to publish the revised manuscript as submitted.

We will e-mail to you pdf copies of the release of copyright form (the signed return of which is required by The Paleontological Society before publication can occur), the request to contribute towards the cost of publication, and the galley proofs. Please let us know if you expect that your email address will change in the near future.

Thank-you for submitting your manuscript and we look forward to working with you to bring about its successful appearance in print.

Cordially,

Brian Pratt

Editor

Journal of Paleontology
